JÖNKÖPING UNIVERSITY
School of Health and Welfare

Dear Student,

A warm welcome to a new semester at the School of Health and Welfare (HHJ)!

If you are joining us for the first time, an exciting journey of learning, new experiences, and personal and professional growth awaits you. If you are continuing your studies with us, we hope you are looking forward to another semester of knowledge, community, and new opportunities.

Remember that your voice matters. At HHJ, we are guided by the principle of **People First** and believe that education is strongest when it is shaped together with our students. Your perspectives, ideas, and engagement help us create an even better learning environment for everyone.

We encourage you to make the most of your time here by taking part in student life, engaging with the Student Union and the School of Health and Welfare Student Association, and considering opportunities to serve as a student representative.

We look forward to meeting you at the Introduction Day, 24 August 2026 and wish you a successful and inspiring semester.

With best wishes,

Catherine Legrand
Dean and Managing Director
School of Health and Welfare (HHJ)
